

The following tips, suggestions and printable sayings were all graciously provided by Abby Moore...

I like to put "Hope you have a wonderful week" in all my cards!

Please have fun making cards for children in need or a smile!

*1. You can keep the text all black or change the colors of the text or the style of the text.
(Keep the titles you like and delete the rest!)*

2. Usually I print these out on white cardstock

3 Cut them out with a paper cutter or scissors

4. Then use a glue stick to glue them to a piece (I love to buy those scraps of paper by the pound from Walmart in the scrapbooking section,) of colored card stock

5. Cut it out with fancy edge scissors

(The extra background color makes the titles pop & it's something you can do while watching TV.)

6. You can make a decoration out of clay to match your title with cutters or free style.

Or you could draw on and color in the card to match your title.

All of these titles were sized to fit a note size card!

Change the size of the font to your needs!

These are the ones I used.
